Certain errors were discovered in this version of TR 15071 just before its publication. In order not to delay the publication of the report, it was decided that the errors will be corrected during a planned revision of this TR which will start as soon as EN 71-14 has been made available. Apart from being listed below, the above mentioned errors are also indicated in a NOTE in the appropriate clauses.

The following errors have been noted (errors are indicated only in the English language but affect all translated texts too).

EN 71-4:2013

8.2 h)

"Ensure that all empty containers and/or non-reclosable packaging are disposed of properly."

The text should have read: "Substances in non-reclosable packaging should be used up (completely) during the course of one experiment, i.e. after opening the package."

8.3

The following sentences are missing:

"Keep young children and animals away from the experimental area."

"Ensure that all empty containers and/or non-reclosable packaging are disposed of properly."

In the above, the word "experiments" should have been "activities".

EN 71-13:2014

Warnings and labelling:
