## Introduction

This Technical Report contains a compilation of national translations of warnings and instructions for use in the EN 71 series of standards.

This document is of particular interest to manufacturers, importers, surveillance authorities and test laboratories with regard to the application of the correct wording of warnings and instructions for use on toy products, packaging and in accompanying instructions in the individual national languages.

The warnings and instructions have been extracted from the following European Standards:

EN 71-4:2013, *Safety of toys — Part 4: Experimental sets for chemistry and related activities*

EN 71-5:2013, *Safety of toys — Part 5: Chemical toys (sets) other than experimental sets*

EN 71-7:2014, *Safety of toys — Part 7: Finger paints - Requirements and test methods*

EN 71-14:2014, *Safety of toys - Part 14: Trampolines for domestic use*

The translations are given in the following languages: English, Bulgarian, Croatian, Czech, Danish, Dutch, Estonian, Finnish, French, German, Greek, Hungarian, Icelandic, Italian, Latvian, Lithuanian, Macedonian, Maltese, Norwegian, Polish, Portuguese, Romanian, Slovak, Slovenian, Spanish, Swedish and Turkish.

The translations also include words that are not part of a specific wording in the standards, but that can be useful when drafting warnings or cautionary statements that are adapted to individual toy products.

It is important to always consult the specific standard(s) to determine if they specify how such warnings and cautionary statements should be worded.

## 1 Scope

This Technical Report contains a compilation of national translations of warnings and instructions for use, mentioned in the EN 71 series of standards. The warnings and instructions for use need to be applied in accordance with the requirements and specifications of the EN 71 series of standards for safety of toys and these standards should always be consulted before drawing up the text of a warning or instruction for use.

The users of this document should be aware that additional markings may be required for certain toys, e.g. in non-EU countries. Local regulations should be checked.
