

CGA G-16—2018

ARSINE

SECOND EDITION

CGA
Compressed Gas Association
The Standard For Safety Since 1913

PREFACE

As part of a program of harmonization of industry standards, the Compressed Gas Association (CGA) has issued CGA G-16, *Arsine*, jointly produced by members of the International Harmonization Council and originally published by the Asia Industrial Gases Association (AIGA 050) and Japan Industrial and Medical Gases Association (JIMGA T-S/37) *Code of Practice Arsine*.

This publication is intended as an international harmonized standard for the worldwide use and application of all members of the Asia Industrial Gases Association (AIGA), Compressed Gas Association (CGA), European Industrial Gases Association (EIGA), and Japan Industrial and Medical Gases Association (JIMGA). Each association's technical content is identical, except for regional regulatory requirements and minor changes in formatting and spelling.

PLEASE NOTE:

The information contained in this document was obtained from sources believed to be reliable and is based on technical information and experience currently available from members of the Compressed Gas Association, Inc. and others. However, the Association or its members, jointly or severally, make no guarantee of the results and assume no liability or responsibility in connection with the information or suggestions herein contained. Moreover, it should not be assumed that every acceptable commodity grade, test or safety procedure or method, precaution, equipment or device is contained within, or that abnormal or unusual circumstances may not warrant or suggest further requirements or additional procedure.

This document is subject to periodic review, and users are cautioned to obtain the latest edition. The Association invites comments and suggestions for consideration. In connection with such review, any such comments or suggestions will be fully reviewed by the Association after giving the party, upon request, a reasonable opportunity to be heard. Proposed changes may be submitted via the Internet at our web site, www.cganet.com.

This document should not be confused with federal, state, provincial, or municipal specifications or regulations; insurance requirements; or national safety codes. While the Association recommends reference to or use of this document by government agencies and others, this document is purely voluntary and not binding unless adopted by reference in regulations.

A listing of all publications, audiovisual programs, safety and technical bulletins, and safety posters is available via the Internet at our website at www.cganet.com. For more information contact CGA at Phone: 703-788-2700, ext. 799. E-mail: customerservice@cganet.com.

Work Item 15-017
Specialty Gases Committee

NOTE—Technical changes from the previous edition are underlined.

Contents	Page
1 Introduction.....	1
2 Scope and purpose	1
2.1 Scope	1
2.2 Purpose	1
3 Definitions.....	1
4 Gas properties.....	4
4.1 General.....	4
4.2 Physical properties	4
4.3 Chemical properties.....	4
4.4 Flammability properties	4
4.5 Health properties	4
4.6 Environmental properties.....	6
5 Gas major hazards	7
5.1 Fire and explosion hazards [19, 20, 21, 22]	7
5.2 Toxicology	8
6 Gas handling equipment—General considerations	10
6.1 Materials of construction.....	11
6.2 Compatibility of sealing compounds	11
6.3 System pressures and overpressure protection	12
6.4 Valve types and filter types	12
6.5 Tubing.....	12
6.6 Purification materials	13
6.7 System leak tests and purge	13
6.8 System temperature control	13
6.9 Use of electrical control and use of electrically classified equipment	13
6.10 Monitoring systems.....	13
6.11 Abatement system.....	14
6.12 System vent.....	14
6.13 Regulators	14
7 Process and operation	15
7.1 Life safety control (gas detection and alarm systems)	15
7.2 Operational procedures and personnel	16
7.3 Ventilation.....	16
7.4 Ongoing maintenance and preventive maintenance programs	17
8 Gas cylinder filling and packaging.....	18
8.1 Filling facility consideration.....	18
8.2 Containers	18
8.3 Filling equipment	19
9 Storage and handling	20
9.1 General guidelines	20
9.2 Storage.....	20
9.3 Handling	21
9.4 Security.....	22
10 Gas supply to point of use.....	22
10.1 Process line control	22
10.2 Regulators	22

11	Gas abatement systems.....	23
11.1	Basic principles of abatement.....	23
11.2	User requirements.....	25
11.3	Waste stream disposal.....	25
11.4	Waste management.....	25
12	Emergency response.....	26
12.1	Preparation.....	26
12.2	Response.....	27
13	References.....	27

Tables

Table 1	—Properties of arsine.....	5
Table 2	—Published data for arsenic.....	6
Table 3	—Regulatory exposure information for arsine.....	10
Table 4	—Material compatibility guide [29].....	11

Figures

Figure 1	—Arsine pressure versus temperature (SI units).....	7
