

**CGA P-74—2019**

**STANDARD FOR TUBE TRAILER  
SUPPLY SYSTEMS AT  
CUSTOMER SITES**

**FIRST EDITION**

**CGA**

**Compressed Gas Association**

*The Standard For Safety Since 1913*

**PLEASE NOTE:**

The information contained in this document was obtained from sources believed to be reliable and is based on technical information and experience currently available from members of the Compressed Gas Association, Inc. and others. However, the Association or its members, jointly or severally, make no guarantee of the results and assume no liability or responsibility in connection with the information or suggestions herein contained. Moreover, it should not be assumed that every acceptable commodity grade, test or safety procedure or method, precaution, equipment or device is contained within, or that abnormal or unusual circumstances may not warrant or suggest further requirements or additional procedure.

This document is subject to periodic review, and users are cautioned to obtain the latest edition. The Association invites comments and suggestions for consideration. In connection with such review, any such comments or suggestions will be fully reviewed by the Association after giving the party, upon request, a reasonable opportunity to be heard. Proposed changes may be submitted via the Internet at our web site, [www.cganet.com](http://www.cganet.com).

This document should not be confused with federal, state, provincial, or municipal specifications or regulations; insurance requirements; or national safety codes. While the Association recommends reference to or use of this document by government agencies and others, this document is purely voluntary and not binding unless adopted by reference in regulations.

A listing of all publications, audiovisual programs, safety and technical bulletins, and safety posters is available via the Internet at our website at [www.cganet.com](http://www.cganet.com). For more information contact CGA at Phone: 703-788-2700, ext. 799. E-mail: [customerservice@cganet.com](mailto:customerservice@cganet.com).

Work Item 13-051

Bulk Distribution Equipment and Standards Committee

<b>Contents</b>	<b>Page</b>
1 Introduction.....	1
2 Scope .....	1
3 Definitions.....	2
4 Health hazards and safety considerations .....	3
5 Personnel training requirements .....	3
6 Site selection and preparation.....	4
6.1 Model and local code compliance .....	4
6.2 Electrical considerations.....	5
6.3 Supplier and customer responsibilities .....	5
6.4 Equipment layout.....	5
6.5 Foundations and site work.....	7
7 Equipment selection .....	10
7.1 Unloading station.....	10
7.2 Hoses .....	11
7.3 Pressure control manifold.....	11
7.4 Signage .....	12
7.5 Tube trailer types.....	13
7.6 Vent stack.....	13
8 Equipment installation .....	13
9 Startup.....	14
9.1 Preparation for startup.....	14
9.2 Purging to remove oxygen from systems to be used in flammable gas service.....	14
9.3 Purging to remove impurities.....	15
9.4 Setting pressure regulation.....	15
9.5 Placing the tube trailer supply system on-line .....	16
10 General system operation .....	16
10.1 Trailer inspection .....	16
10.2 Pressure transfer .....	17
10.3 Emergency isolation and flow control.....	17
10.4 Trailer swapping and filling activities .....	17
11 System removal.....	19
12 Documentation .....	19
13 References .....	19
